

# Discussion 08

## Abstraction

Kenneth Fang (kwf37), Newton Ni (cn279)

Feb. 11, 2019

# Agenda

1. Have the repo pulled and sit with your A2/A3 groups!
2. Specification Game
3. Recitation 9 Q1
4. Recitation 9 Q2 (Storytime)

# Specification Template

```
(** [f x] is ...  
    Example: ...  
    Requires: ...  
    Raises: ... *)  
val f : t1 ... -> u
```

# Specification Template

```
(** [f x] is ...  
    Example: ...  
    Requires: ...  
    Raises: ... *)  
val f : t1 ... -> u
```

- This is a *suggestion*, not a *rule*.

# Specification Template

```
(** [f x] is ...  
    Example: ...  
    Requires: ...  
    Raises: ... *)  
val f : t1 ... -> u
```

- ▶ This is a *suggestion*, not a *rule*.
- ▶ As engineers and computer scientists, it is our responsibility to make individual judgments on how best to communicate our ideas.

# Specification Template

```
(** [f x] is ...  
    Example: ...  
    Requires: ...  
    Raises: ... *)  
val f : t1 ... -> u
```

- ▶ This is a *suggestion*, not a *rule*.
- ▶ As engineers and computer scientists, it is our responsibility to make individual judgments on how best to communicate our ideas.
- ▶ What else might we add to our code documentation that's not in the template?

# Specification Template

```
(** [f x] is ...  
    Example: ...  
    Requires: ...  
    Raises: ... *)  
val f : t1 ... -> u
```

- ▶ This is a *suggestion*, not a *rule*.
- ▶ As engineers and computer scientists, it is our responsibility to make individual judgments on how best to communicate our ideas.
- ▶ What else might we add to our code documentation that's not in the template?
- ▶ When might you not include everything in the template?

# Exercise Time

- ▶ If you haven't done so, get with your assigned comrades.
- ▶ Pull the repo.
- ▶ Check out
